

How to Qualify for FREE DELIVERY

Simply place an order with xpedxstores.com.

If your order is to be delivered in one of our many local trading areas and meets the required dollar minimum for that area, your delivery is FREE! Free delivery applies to weekday/non-holiday orders placed before 3:00 P.M. local time shipped via ground service. We reserve the right to determine the delivery method used to fulfill your order. There are a few items that are not available for delivery, but most are.

What if an order does not meet requirements for free delivery?

Deliveries outside of our local delivery areas and which do not meet our local order dollar minimum will be assessed a charge based on the total weight of the order, ship-from and ship-to addresses and the shipping method you select. If ordering through xpedxstores.com, delivery fees will be determined prior to final checkout. Delivery fees are non-refundable unless the product is damaged or defective. Additional delivery fees may be charged for custom or special order items. Delivery fees are subject to change without notice.

Does my address and order subtotal fall within the local trading area regulations?

On the “shipping” page, located below the shipping method, if your order meets the required order dollar minimum and the shipping address is within the local trading area, a “Free Delivery” notice will appear. Alternately, if a shipping amount is displayed, your order does not meet the requirements for free delivery and you will incur the delivery charges as shown. Changing the delivery method from ground service will incur delivery charges as indicated.

Is there a benefit or savings for having my order delivered?

The online ordering site is available 24/7! Ordering online will help you stay on location, keep on top of your business and provide excellent customer service. We understand and appreciate the value of customer service not only our customers but also yours. Having orders delivered alleviates the need to drive to the store and load heavy packages. Your time is valuable, online ordering can help maximize time savings!
